

<b>Activity Title:</b>	<b>AWARENESS cum TRAINING ON HACCP FOR FEED BUSINESS OPERATORS</b>
<b>Component:</b>	Standards Harmonisation and Sanitary and Phytosanitary (SPS) Conformity/ SPS Subcomponent
<b>Activity Number:</b>	2S.1.2.19.1
<b>Dates:</b>	31 March-1 April 2011
<b>Partner Agency:</b>	Bureau of Fisheries and Aquatic Resources (BFAR)

TRTA-SPS key expert Dr. Chris Oates (standing, facing in photo), guides the participants in groups in developing their process flow charts from the production to the distribution of feeds and determining critical conditions that need to be controlled (above photo). The participants then compared their outputs against other groups and shared their thoughts and experiences in feedmill operations, safety and quality (bottom photo).

The awareness cum training built on the existing working knowledge of the participants who have been in the feedmill business operation for a long time. Feed millers who supply to EU registered farms will be subject to BFAR registration and inspection following EU accepted standards on food safety to ensure that food safety is implemented even in the supply chain.

<b>Objectives:</b>	<p>Overall objective: Build awareness and develop the knowledge and understanding of feed business operators on HACCP for aquaculture feed production, particularly:</p> <ul style="list-style-type: none"> <li>• participants will be more aware of the registration requirements and the need for HACCP ;</li> <li>• participants will have an understanding of the HACCP system for feed business operators and how to develop such a system; and</li> <li>• participants will be able to apply the requirements in their daily work activities.</li> </ul>
<b>Methodology:</b>	<ul style="list-style-type: none"> <li>• Presentation</li> <li>• Open forum and discussion</li> <li>• Group workshop exercises</li> </ul>
<b>Number of Participants and Profile:</b>	31 technical personnel from feed business operators particularly those supplying or potentially supplying EU registered aquaculture farms
<b>Expert :</b>	Dr. Christopher Oates (Key Expert 4 on SPS standards and conformance)
